## PROFILE

Frontend-focused Software Engineer with 3+ years of experience building **scalable web applications** in **React**, **Next.js**, and **Node.js**. Passionate about crafting **performant UIs**, improving workflows, and contributing to **open-source projects**.

## EDUCATION

**Shri Mata Vaishno Devi University** Aug 2017 – Aug 2021  
B.Tech in Computer Science Engineering Jammu, India  
GPA: 3.5/4

## EXPERIENCE

**Polymerize** — polymerize.io Jan 2023 – Jan 2024  
Software Engineer Singapore

- Revamped **Polymerize.io & Polymerize.jp (Gatsby)**, reducing load times by **30%** and improving user retention.
- Spearheaded **Japanese & German localization**, expanding reach across Asia & Europe.
- Launched new feature pages with the product team, contributing to a **20% increase in lead generation**.

**Truebase** — truebase.io Aug 2021 – Jan 2023  
Software Engineer Seattle, USA

- Built the **truebase.io website** with **Next.js** and **Tailwind CSS**, delivering fast, responsive marketing pages.
- Scaled the **Truebase SaaS platform** using **React**, **MobX**, and **MongoDB**, implementing aggregations and **Dockerized deployments** for performance.
- Automated **CRM workflows** via **Pipedrive API**, reducing manual data entry by **50%**.

**Localytee** — localytee.com Oct 2020 – Jul 2021  
Front-end Engineer Irvine, California

- Delivered interactive UIs with **React**, **Redux**, and **GraphQL**, reducing bounce rate and improving retention.
- Implemented **PostgreSQL-backed APIs** for reliable analytics and seamless data handling.

**EOS Design System (PSF)** — github.com/EOS-uiux-Solutions/eos-icons May 2019 – Aug 2020  
Google Summer of Code Intern & Mentor Berlin, Germany

- Contributed major features to the **EOS Design System OSS**, completing all 3 evaluation phases.
- Built optimized landing pages with **Pug**, **SCSS**, and **Node.js**, improving performance and maintainability.

## PROJECTS

**Portfolio** — GitHub | Live 2022

- Responsive portfolio built with **React**, **TypeScript**, and **Tailwind**, optimized for performance.
- Showcases projects, animations, and a modern UI with mobile-first responsiveness.

**Netflix Clone** — GitHub | Live 2021

- **Netflix-style UI** built with **React** and **TMDB API**, showcasing movies by genre with banner highlights.
- Integrated **YouTube trailers** and reusable components for an immersive streaming-like experience.

**TaskMaster Pro** — GitHub | Live 2020

- Designed a **task management app** with real-time filtering, search, and dark mode for enhanced productivity.
- Built using **React** and modern UI patterns, ensuring seamless experience across devices.

## TECHNICAL SKILLS

**Frontend:** React, Next.js, Redux, TypeScript, SCSS, Tailwind, HTML/CSS, Bootstrap, jQuery

**Backend:** Node.js, GraphQL, MongoDB, PostgreSQL, Python

**Tools:** Git, Gatsby, OpenCV

## ACHIEVEMENTS

- **Google Summer of Code** Intern (2019) and Mentor (2020) for EOS Design System under Python Software Foundation.
- Founded the **CodeChef College Chapter**, organizing coding events and boosting contest participation.
